DETAILED ACTION

Claims 24-39 are pending in the instant application.

Election/Restriction

Pursuant to 37 C.F.R. 1.142(a), whereby the distinctness and independence of the inventions of the instant application have become clear upon further consideration, an examiner's action on the merits of the amendments and arguments filed by applicant on September 26, 2000 insofar as they pertain to the elected invention is hereby deferred until an election has been made. (See MPEP 810.02 and 811)

Pursuant to 35 U.S.C. 121 and 37 C.F.R. 1.141, the nucleic acid sequences listed in claims 24, 30, 35, 37 and 39 are subject to restriction. As per M.P.E.P. 2434, "the Commissioner has partially waived the requirements of 37 C.F.R. 1.141 and will permit a reasonable number of such nucleotide sequences to be claimed in a single application. Under this policy, in most cases, up to 10 independent and distinct nucleotide sequences will be examined in a single application without restriction. Those sequences which are patentably indistinct from the sequences selected by the applicant will also be examined."

Claims 24, 30, 35, 37 and 39 specifically claim sequences encoding different and distinct transcription factor binding sites. Each of these sequences is considered to be structurally independent and distinct, because each of these sequences has a unique nucleotide sequence. Furthermore, a search of all the sequences claimed presents an undue burden on the Patent and Trademark Office to search and

examine all of the recited sequences. In view of the foregoing, applicants are required to elect up to 1 claimed sequence from claims 24, 30, 35, 37 and 39.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
